### **Warner 344S Substation Refurbishment – Notice of application filing and approval**

Thank you for your ongoing participation in the Warner 344S Substation Refurbishment project. We submitted an application for the project to the Alberta Utilities Commission (AUC) on June 4, 2024. The AUC approved this project for construction on June 11, 2024.

#### **Next steps**

We plan to begin construction in June and anticipate construction to be complete by December 20, 2024.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- work at an existing substation

#### **AUC approval**

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:

<https://www2.auc.ab.ca/Proceeding29073/SitePages/Home.aspx>

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca)

Once your account has been created and you have successfully logged in, enter Filing number 29073 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter '344S' into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

#### **Project background**

AltaLink will add new equipment to its existing Substation within the County of Warner and replace aging equipment to ensure a reliable supply of electricity is available in the area for years to come.

The project will include:

- replacing two transformers with one new transformer
- replacing two faulting switches with one new circuit breaker
- removing and salvaging one wood pole located outside the substation fence
- minor additional substation equipment upgrades or modifications

Most of the work will be completed within the existing substation fenceline – no expansion is required.

**Contact us**

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/344s-warner-substation-refurbishment>.

Sincerely,

Kris Gladue  
Manager, Stakeholder Engagement
