## Enterprise Solar Connection – Project update

You are receiving this letter because you are near the Enterprise Solar Connection, and we want to provide you with an update about a proposed change to this project.

### Project background

Altalink has approval to connect Enterprise Solar GP Inc.'s solar project to the grid by:

- modifying two structures on the 161L transmission line located in SW-26-16-25-W4
- installing optical grounding wire (OPGW) on the two modified structures
- temporarily adding guy wires on the two structures, which will be removed once construction is completed

The project is located in Vulcan County, approximately five kilometres southwest of the Town of Vulcan. The Alberta Utilities Commission (AUC) approved Altalink's project for construction on October 29, 2021.

### Proposed addition of a new steel pole

Based on further engineering, one of the structures we proposed to modify will now be altered from a single-pole to a two-pole structure. We will accomplish this by adding one new steel pole next to the existing structure. The new steel pole will be approximately 30 metres tall.

This new steel pole is proposed to be located on private property, approximately three metres outside the road allowance and will be within Enterprise Solar GP Inc.'s approved right-of-way. Please see the map included with this letter for more detail.

As a result of this proposed addition, we will be filing an amendment to our project previously approved by the AUC.

### Anticipated project schedule

<b>File project amendment with AUC</b>	May 2024
<b>Start construction if amendment is approved</b>	November 2024
<b>Complete construction</b>	July 2025

*Although we attempt to follow the anticipated project schedule, it is subject to change. We will continue to provide you with updated schedule information.*

**Contact us**

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. Further information about this project and maps are available on [www.altalink.ca/projects](http://www.altalink.ca/projects).

Sincerely,

Kris Gladue
