## **RES Nova Solar Power Connection Notice of application filing**

Thank you for your ongoing participation in the RES Nova Solar Power Connection project. We submitted an application for the project to the Alberta Utilities Commission (AUC) on September 13, 2024.

### **Next steps**

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit [www.auc.ab.ca](http://www.auc.ab.ca).

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

### **The application**

The application can be viewed on the AUC's website at:  
<https://www2.auc.ab.ca/Proceeding29309/SitePages/Home.aspx>

To access the application, click on the 'eFiling System Login' button on the top of the page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at [info@auc.ab.ca](mailto:info@auc.ab.ca).

Once your account has been created and you have successfully logged in, 29309 into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Nova Solar" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the details below and we will mail a copy of the application to you.

### **Project background**

RES is constructing a new transmission line to connect their approved substation and new solar power facility to the grid.

To accommodate the connection, AltaLink is proposing to modify our existing 924L/927L transmission line.

AltaLink is also proposing to install a new telecommunications tower up to 29 metres tall within RES's new substation located in NW-3-22-26 W4M.
