

# Need for Transmission Enhancements in the Town of Fox Creek area

*Nova Gas Transmission Ltd. (Nova Gas) has applied to the AESO for transmission system access to serve a new demand for electricity in the Town of Fox Creek area. Nova Gas' request can be met by the following solution:*

## PROPOSED SOLUTION

- Add a substation, designated as Pine Creek 328S, including three 138 kilovolt (kV) circuit breakers, to be connected to the existing 138 kV transmission line 685L using an in-and-out configuration.
- Add a substation, designated as Berland River 1182S, including one 138/25 kV transformer and three 138 kV circuit breakers.
- Add one 138 kV transmission line to connect the proposed Berland River 1182S substation to the proposed Pine Creek 328S substation using a radial configuration.
- Add or modify associated equipment as required for the above transmission developments.

## NEXT STEPS

- In mid 2024, the AESO may consider the need for this project for approval under section 501.3 of the ISO rules, *Abbreviated Needs Approval Process (ANAP Rule)*, or apply to the Alberta Utilities Commission (AUC) for approval of the need.
- The AESO will notify stakeholders via the AESO's website at [www.aeso.ca/grid/transmission-projects](http://www.aeso.ca/grid/transmission-projects) prior to the project being considered under the ANAP Rule or prior to filing a needs identification document (NID) application with the AUC.

*The following organizations have key roles and responsibilities in providing access to the transmission system:*

## THE AESO

- Must plan the transmission system and enable access to it for generators and other qualified customers.
- Can approve eligible projects through the ANAP Rule and for non-eligible projects, the AESO will prepare and submit a NID to the AUC for approval.

## ALTALINK

- Is the transmission facility owner in town of Fox Creek area.
- Is responsible for detailed siting and routing, constructing, operating, and maintaining the transmission facilities.
- Is regulated by the AUC and must apply to the AUC for approval of its transmission facilities applications.

## WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans.

If you have any questions or comments, please contact us directly.
